## HARDOX TUBE DUMPER 22 TON CAPACITY

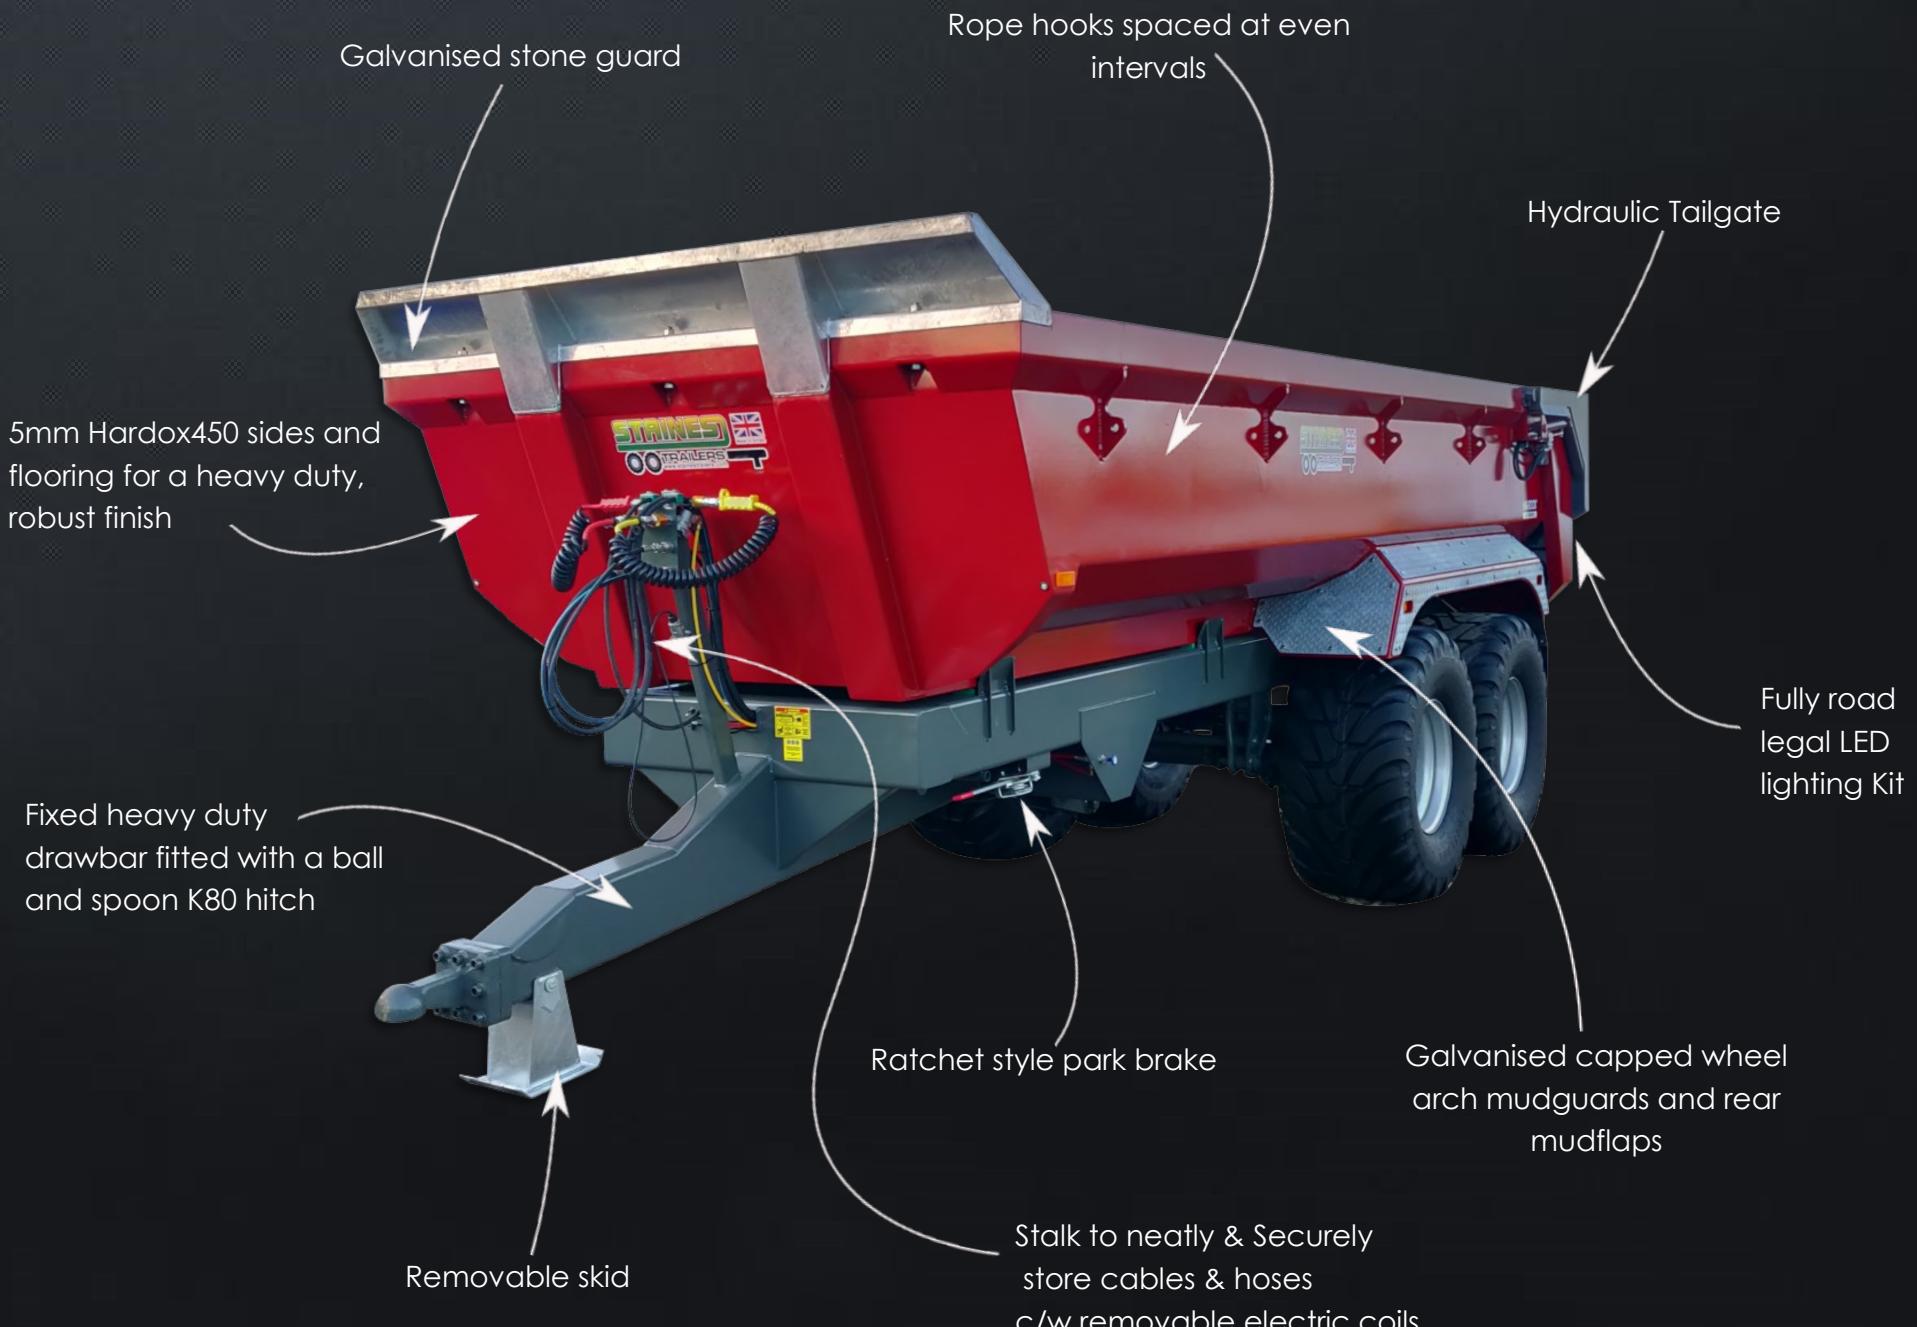

AGRICULTURAL  
SPECIFICATION

Our Staines Hardox® tube dumpers are designed and manufactured from the world's leading abrasion-resistant steel plate. By utilising materials such as Hardox® 450 and Strenx® 700MC we have created a dump trailer that will continually resist severe wear and impact during its long working life.

These materials also help us to lower overall body weight, increase overall strength resulting in the ability to transport larger payloads.
